Important Security Reminder:
Scammers are pretending to be EagleBank employees. Know the warning signs.

EagleBank will never call, text, or email you to ask for your password, PIN, one-time passcode, or online banking credentials. Scammers are impersonating bank employees to gain access to customers' accounts. They may claim there is suspicious activity, create a sense of urgency, or ask you to verify information to protect your money.

Five Ways to Stay Protected

1. **Question unexpected calls or messages.** Even a familiar phone number can be spoofed.
2. **Keep your information private.** Never share passwords, PINs, or verification codes.
3. **Think before you click.** Avoid links in unsolicited texts or emails.
4. **Never approve an unfamiliar transaction.** If you didn't initiate it, don't authorize it.
5. **Verify directly with EagleBank.** If something seems suspicious, end the conversation and call us.

If Something Doesn't Feel Right, Trust Your Instincts.

Hang up, don't respond to suspicious messages, and contact EagleBank directly at **301-986-1800**.

Your security matters to us. Stay alert, stay informed, and help protect your accounts.
